

COVID-19 UPDATE

February 13, 2023

Dear Residents,

Since our last update on February 9, we have had five additional residents test positive for COVID-19.

As you know, flu, cold, and COVID-19 are prevalent right now. In an effort to keep residents and team members healthy, we **strongly** encourage you to take necessary precautions:

If you are sick or have been exposed to others who are ill, please stay in your apartment home, and let the Concierge know. If you have symptoms of COVID-19 or think you have been exposed to it, please take an at-home test or get tested, and let us know if you test positive.

Regardless of your health status, please **wash your hands often with soap and water**; if this is not possible, use an alcohol-based hand rub. And consider **wearing a good-quality face mask whenever you are in group settings**.

Our restaurants will remain open, and carry-out and delivery are available for those that prefer to eat at home.

We appreciate your ongoing efforts to keep yourself and your neighbors healthy and safe.

Please take care and stay well.

Sincerely,

Katrina O'Neill
Executive Director
